

## Nu, ardievu, Vidzemīte

A                      E                      A                      D  
Nu ardievu Vidzemīte, Nebúðu vairs øai zemē,  
A                      E                      E7                      A E A  
Neieðu vairs savâ vaiâ ciema durvis virinât.

A                      E                      A                      D  
Lai aug purvi, lai aug meýi, Kur gâj' cauri drasēdams  
A                      E                      E7                      A E A  
Nu man drīz būs jadrasēi Daiîa kara pulciðâ.

A                      E                      A                      D  
Kad, mâmiðâ, tu redzētu, Kâ puøæoja tav' dēlið',  
A                      E                      E7                      A E A  
Tad tu vairsi neraudātu Sava dēla auklējum'.

A                      E                      A                      D  
Uzvilks kara mētelīti, Uzliks kara cepurīt',  
A                      E                      E7                      A E A  
Apjozīs ar zobentiðu, Cels uz stalta kumelið.

A                      E                      A                      D  
Dziedâdami, spēlēdami lenaidniekus uzvarēs  
A                      E                      E7                      A E A  
Dziedâdami, spēlēdami No kariðâ mājâs nâks.
