

## Southern Cross

A                      G                      D  
Got outta town on a boat going to southern islands  
A                      G                      D  
Sailing a reach before a a following sea  
A                      G                      D  
She was making for the trades on the outside  
A                      G                      D  
And the downhill run to Paapete  
A                      G                      D  
Off this wind on this heading lie the Marqueses  
A                      G                      D    Bm    A  
We got eighty feet of the waterline nicely making way  
A                      G                      D  
In a noisy bar in Avalon I tried to call you  
A                      G                      D    Bm    A  
But on a midnight watch I realized why twice you ran away  
A  
Think about  
G                      D                      G                      A  
Think about how many times I have fallen  
G                      D                      G                      A  
Spirits are using me larger voices calling  
G                      D                      G                      A  
What heaven brought you and me cannot be forgotten

### [Chorus]

D                      G                      A  
I have been around the world  
Looking for that woman girl  
Who knows love cant ignore  
A                      G                      D  
And you know it will  
And you know it will  
A                      G                      D

When you see the Southern Cross for the first time

A G D

You understand now why you came this way

A G D

Cause the truth you might be runnin from is so small

A G

But its as big as the promise

D Bm A

The promise of a coming day

A G D

So Im sailing for tommorrow my dreams are a dying

A G D

And my love is an anchor tied to you

A G

Tied with a silver chain

D

I have my ship and all her flags are a flying

A G

She is all that I have left

D Bm A

And music is her name

[Chorus]

D G A

I have been around the world

Looking for that woman girl

Who knows love cant ignore

A G D

And you know it will

And you know it will

[Verse]

A G D

So we cheated and we lied and we tested

A G D

And we never failed to fail

A G D

It was the easiest thing to do

You will survive being bested

A G

Somebody fine will come along

D Bm A

Make me forget about losing you

In the southern cross.....
