G C D
If I could hold you tonight, I might never let go
G C D
If I could hold you tonight, I might never let go
G C D G
If I could hold you tonight, I might never, no never, let go

G C D
If I could hold you tonight, I might never let go
G C D
If I could hold you tonight, I might never let go
G C D G
If I could hold you tonight, I might never, no never, let go

G C D
I like the way you dance, I like the way you paint your lips
G C D
If I had a chance to be with you, I would not slip
G C D
So hey what do you say, you see a thing or two in me?
G C D
Then let's be on our way, we don't need no other company

G C D
If I could hold you tonight, I might never let go
G C D
If I could hold you tonight, I might never let go
G C D G
If I could hold you tonight, I might never, no never, let go

G C D
We won't need no wine, and we won't need no other stuff
G C D
Cause we'll be doing fine just holding close and tasting love
G C D
And when the night it ends, we'll close the curtains way up tight
G C D
Then we'll just pretend, that it isn't day but still the night

G C D
If I could hold you tonight, I might never let go
G C D
If I could hold you tonight, I might never let go
G C D G
If I could hold you tonight, I might never, no never, let go

C G C G
There's a fire burning deep down in your eyes
C D
It's got me almost hypnotized

G C D
I like the way you dance, I like the way you paint your lips
G C D
If I had a chance to be with you, I would not slip
G C D
And when the night it ends, we'll close the curtains way up tight
G C D
Then we'll just pretend, that it isn't day but still the night

G C D
If I could hold you tonight, I might never let go
G C D
If I could hold you tonight, I might never let go
G C D G
If I could hold you tonight, I might never, no never, let go
