

## Say Something

James

---

C Am F  
You're as tired as a hunter's trap, Hidden well

C  
What are you concealing

C Am  
Poker face carved in stone

F  
Amongst friends but all alone

C  
Why do you hide

C Am  
Say something, say something, Anything

F C  
I've shown you everything, Give me a sign

C Am  
Say something, say something, Anything

F C  
You silence is deafening, Hey me in kind

C Am  
Take a drug to set you free

F C  
Strange fruit from a forbidding tree, You've got to come down soon

C Am F  
More than a drug is what I need, Need a change of scenery

C  
Need a new life

C Am  
Say something, say something, Anything

F C  
I've shown you everything, Give me a sign

C Am  
Say something, say something, Anything

F C  
You silence is deafening, Hey me in kind

C Am  
Say something, say something, Anything  
F C  
I've shown you everything, Give me a sign  
C Am  
I'm open, Wide open, Wondering  
F C  
Have you swallowed everything, Hey me in kind
