

E|A|E|A

E                      A                      E                      A                      E A

Let me run with you tonight, I'll take you on a moonlight ride

E                      A                      E                      A

There's someone I used to see, but she don't give a damn for me

**E                      B                      E                      A**

**Let me get to the point, let's roll another joint**

**E                      B                      E                      A**

**Turn the radio loud, I'm too alone to be proud**

**E              D              A      E              D                      A              E**

**You don't know how it feels, You don't know how it feels to be me**

E                      A                      E                      A                      E A

People come and people go, some grow young and some grow cold

E              A                      E                      A

I woke up in between a memory and a dream

**E                      B                      E                      A**

**Let me get to the point, let's roll another joint**

**E                                      B                      E                                      A**

**Let me head on down the road, there's somewhere I gotta go**

**E              D              A      E              D                      A              E**

**You don't know how it feels, You don't know how it feels to be me**

My old man who's like a rock, he's still tryin' to beat the clock

Think of me what you will, I've got a little space to fill

Let me get to the point, let's roll another joint

Let me head down the road, there's somewhere I gotta go

You don't know how it feels

You don't know how it feels

You don't know how it feels to be me

You don't know how it feels

You don't know how it feels

You don't know how it feels to be me
